SUPERFLEX T-O FIREBLOC

Fire Performance Roofing Membranes

Superflex T-O FireBLOC® high performance roofing membranes are LPCB approved and provide long term waterproofing performance.

The combination of IKO FireBLOC® technology, polyester bases for toughness and SBS polymer modified bitumen coatings for flexibility, ensures that Superflex T-O FireBLOC® membranes have the properties to cope with the demands of modern building techniques and achieve the highest UK fire ratings. The products are specially designed for torch (or hot air) application and are suitable for both new build and refurbishment applications.

- IKO FireBLOC® technology
- LPCB Approved
- Fire performance achieving BS 476: Part 3: FAA
- British Board of Agrément certified membranes
- Choice of 350 g/m² or 250 g/m² high tensile strength polyester based cap sheets
- Torch on or hot air application
- SBS modified bitumen coating (low temperature flexibility to -20°C)
- 15 year guarantee covering materials and workmanship
