IKO POLIMAR BWS

The IKO Polimar BWS System delivers a fast curing, highly durable and flexible waterproofing coating.

Designed for a range of applications, it provides a slip and skid resistant surface for balconies, walkways and other similar areas such as vehicle or pedestrian ramps, stairs, parking bays, driveways, railway platforms and cycle paths.

IKO Polimar BWS is suitable for new build and refurbishment projects and its quick curing time enables the project to be completed within hours rather than days - ideal when working in areas with regular foot or vehicle traffic.

Features and benefits

- Fast curing
- Cold applied
- Waterproof
- UV resistant
- Slip resistant
- Seamless finish
- 15 year guarantee

The IKO Polimar BWS system is available in standard colours light grey, medium grey, dark grey, red and black. Or it can be produced to any BS or RAL colour on special order.
